SKILLS SUMMARY

- **Languages:** C++, Java, Python, C, MySQL, Pl/SQL, HTML, CSS, JavaScript
- **Frameworks:** Bootstrap, Tailwind CSS
- **Tools/Platforms:** Leetcode, HackerRank, Geeksforgeeks, Git, GitHub, Excel, Kali Linux, Windows, VSCode, Selenium
- **Soft Skills:** Leadership, Problem-Solving, Team Player, Time Management, Adaptability

PROJECTS

- **Sentiment Analysis: TF-IDF vs DistilBERT | [Github](#)** July 2026
Built and compared two sentiment classification approaches on movie review text: a TF-IDF + Logistic Regression baseline and a fine-tuned DistilBERT transformer model.
Achieved 91% accuracy with the TF-IDF baseline; fine-tuned DistilBERT using Hugging Face's Trainer API for improved handling of context and negation.
Deployed the trained model as an interactive web application for live sentiment prediction.
Technology used: Python, Scikit-Learn, Hugging Face Transformers, PyTorch, JavaScript.
- **AI-Based Mobile Screen Privacy System (Provisional Patent Filed) | [Github](#)** July 2026
Designed a real-time secondary-viewer detection system using face detection and gaze estimation to identify when someone other than the primary user is looking at a mobile screen.
Implemented pupil localization via contour detection to classify gaze direction, triggering privacy alerts only when a second viewer is actively looking at the screen.
Filed a provisional patent for the underlying detection approach.
Technology used: Python, OpenCV, Computer Vision, Haar Cascades.
- **Online Mentor Recommendation System | [Github](#)** November 2025
Engineered a supervised learning-based system to recommend suitable mentors to students based on skill alignment and domain preferences.
Trained and evaluated multiple machine learning models including Logistic Regression, Decision Tree, and Random Forest for mentor matching.
Optimized model performance and achieved **96% accuracy** in predicting top-match mentors.
Technology used: Python, Scikit-Learn, Pandas, NumPy, Matplotlib/Seaborn for visualization.

TRAINING

- **Cipherschools | [Certificate](#)** June 2025 – July 2025
Data Structures and Algorithms
 - Completed a rigorous 70-hour training program covering fundamental data structures and algorithmic techniques, with a strong focus on efficiency and problem-solving.
 - Applied optimized approaches to solve structured coding problems, enhancing proficiency in time and space complexity analysis.
 - Practiced DSA fundamentals through structured problem-solving sessions, consistently completing assigned tasks and clearing the final assessment.

CERTIFICATIONS

- Oracle Certified Foundations Associate | [Oracle](#) March 2026
- Machine Learning Fundamentals | [Infosys Springboard](#) January 2026
- Master Generative AI & Generative AI tools | [Infosys Springboard](#) August 2025
- ChatGPT, Generative AI & LLM | [Infosys Springboard](#) August 2025
- Google Cybersecurity | [Coursera](#) July 2024

ACHIEVEMENTS

- Awarded the LeetCode 100 Days Badge for coding consistency [LeetCode](#) Since 2026
- S1 Category at LPU University Since 2025
- Solved 200+ problems on [Leetcode](#) Since 2025

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.42 Since August 2023
- **BSP Senior Secondary School** Chhattisgarh, India
Intermediate; Percentage: 69% June 2021 - March 2023
- **BSP High School** Chhattisgarh, India
Matriculation; Percentage: 94% June 2020 - March 2021
